Honda NT1100 Kun svart igjen!

Model updates: A new breed of Honda tourer makes its debut. Taking the heart of the CRF1100L Africa Twin as a starting point, the NT1100 builds on the platform to offer comfortable, agile, enjoyable performance. A low seat height and sharp steering geometry combine with high specification suspension to create a sporting package. 5-way height and angle adjustable screen and upper/lower wind deflectors ensure high-speed aero efficiency and outstanding weather protection; cruise control is standard, as are slim panniers and heated grips. Rider aids include 3 default riding modes, 2 USER custom options, Honda Selectable Torque Control (HSTC) and Wheelie Control. Radial-mount four-piston front calipers provide the braking power, 120/70-17 and 180/55-17 front and rear tyres the grip. A 6.5-inch TFT touch screen rounds out a premium specification and features Apple CarPlay® and Android Auto® connectivity.

Sterk 1100cc paralelltwin, 102 hk og 104 nm.

Cruisecontrol.

Abs bremses og tractioncontrol.

6,5 tommers touch TFT skjerm i farger.
