Nyhet for 2023! Kommer til Våren!

Honda CB750 Hornet.

New Model: *Honda's brand-new Hornet reveals its sting. Carrying zero excess mass, class-leading power-to-weight ratio is delivered by a 67.5kW and 75Nm engine driving a 190kg package. The all-new, eight-valve parallel twin-cylinder unit delivers both top end buzz and heaps of mid-range usability, combining with a new ultra-lightweight frame for supremely agile side-to-side performance and instant, riotous acceleration. Throttle By Wire (TBW) serves up 3 riding modes and 3-level Honda Selectable Torque Control (HSTC) with integrated Wheelie Control, plus 3 levels of Engine Braking and Power delivery. The new frame wears full Showa suspension: 41mm Separate Fork Function Big Piston (SFF-BP™) USD forks and rear shock working through Pro-Link. Dual, radial-mount four-piston calipers bite hard. The premium specification includes 5-inch colour TFT instrument display, with Honda Smartphone Voice Control (HSVC), full LED lighting, auto-indicator cancel and Emergency Stop Signal (ESS) technology. An A2 licence option will also be available.*

- *All new 755cc parallel twin 8 valve unicom engine*
- *Max power - 92hk @ 9,500rpm*
- *Max torque - 75Nm at 7,250rpm*
- *270° crankshaft and uneven firing order for maximum engine character*

- *Patented Vortex Air Flow ducts for optimum airflow*
- *Assist /slipper clutch offers light lever feel and manages rear wheel hop on downshifts*
- *23km/l fuel economy with a potential 340km tank range*
- *Setehøyde 795 mm*
- *Vekt 190 kg*
